A BRIGHTER TOMORROW

UI/FE Developer

React 18+ | TypeScript | GraphQL + Apollo Client | AG Grid | Ant Design

Hyderabad, India	Hybrid · 4 days in office	3+ years · React

About the Role

We are looking for an experienced UI Developer with a strong command of React JS, GraphQL APIs using Apollo Client, AG Grid and Ant Design to join a high-performing frontend team in Hyderabad. You will build and maintain enterprise-grade web applications, working closely with product, design and backend teams. The role calls for technical depth and a user-centric mindset.

Key Responsibilities

- Develop and maintain scalable, performant React 18+ applications using TypeScript.
- Build complex, data-heavy interfaces using AG Grid for enterprise data visualization.
- Implement and extend UI components using the Ant Design system.
- Integrate with GraphQL APIs using Apollo Client for efficient data fetching and cache management.
- Collaborate with UX/design teams to translate wireframes into pixel-accurate, accessible interfaces.
- Write clean, well-tested code using Vitest or a similar unit testing framework.
- Participate in code reviews, enforce coding standards and contribute to frontend architecture decisions.
- Optimize application performance across rendering, bundle size and loading speed.
- Work within Agile sprint cycles and maintain clear communication with cross-functional stakeholders.

Requirements

- 3+ years of hands-on frontend development experience, with at least 3 years in React.
- Demonstrable expertise with AG Grid, including custom renderers, server-side row models and advanced filtering.
- Production experience with the Ant Design component library.
- Strong understanding of React performance patterns, including memoization, lazy loading and code splitting.
- Comfortable with TypeScript strict mode and type-driven development.
- Experience with Git-based collaboration, including branching strategies, PR reviews and merge-conflict resolution.
- Ability to communicate technical trade-offs clearly with non-technical stakeholders.
